Index rerum vol. 13

Actions
- external – 243
adaptation of the old 19
adjustment
- to aging 8
- decreasing – 1
- to retirement 5
adults' search and recognition 149–177
aggression toward peers 110
aging
- biological theories of – 127–139
- as a bio-social process 22
- as loss of information 132
- problems of – 19
- as a process 21
- sociological theories of – 17–27
- successful – 20
- theory of – 1–16
attention 163
- mechanisms of – 70
- selective – 43, 70, 77
attitude toward retirement 9

Behavior signal 243
biological
- influences on development 178–187
- perspective 242, 254

Children's search and recognition 149–177
class differences 29, 186
classificatory behavior 140–148
cognitive
- development 67, 80–86
- performance 261
- reconstruction 9, 10
- structure 8, 59
- theory of personality 1–16, 3
cohort 21, 258
- age by – analysis 265
cultural differences
- in classificatory behavior 140–148
- in color/form preference 140–148
concept
- abstraction of – 201–212
- of progressive change 201–212
- of self 11
conscience
- development of – 93
- and socialization techniques 90–126
- types of – 95–98
cross-sectional sequences 258–268

Department of psychology 269–279
development
- biological influences on – 178–187
- cognitive – 258–268
- of complex behavior 213–240
- concept of – 66
- of the department of psychology 269–279
- ecological influences on – 178–187
- historical – 269
- models of – 219–223
developmental
- differences 188–200
- laws 66
- Piaget's – theory 241, 251
- sequences 141
discrimination behavior in children 70, 79–163
discrimination learning
- developmental processes in – 65–89
- historical background of 67
- theories of – 67
- and verbal behavior 80
discipline
- encounter 113–118
- techniques 118
DNA 132–137

Ecological influences on development 178–187
empathy 123
eye
- fixations 150–151
- movement 159, 164
expectation 5

Familiarity of objects 190

XUM

Gerontological approaches 3
guilt 94

Identification 9, 93, 119
information in cellular-systems 132

Knowing
– operative – 242
– in Piaget's theory 241–257
– sensori motor – 245

Language
– acquisition 57, 249
– and discrimination behavior 80–82
– meaning and use of – 254
– in Piaget's theory 241–257
– symbolic system of – 250
– and thinking 251, 256
labeling ability 190
learning set 84
liberation period 271
life
– expectancy 18, 128
– historical antecedents to – span 53
– psychoanalytic contributions to – span 54
– span 28
– span developmental psychology 53–60

Maturation 229–237
meaning 254, 257
– of words 272
mediation 79
mediational deficiency 81
– S-R theory 72–79
memory tests 28–42
moral development 92
motivational
– aspects of behavior 5
– structure 8
mutation 132

Nomological network 57

Perceptual
– activity 166
– development 163
– organization 164
– processes 43
perception of change 47
personality
– and socialization techniques 90–126
– theory 1–16
preference tests 28–42

Recall tests 32–34
recognition 34, 169
reinforcement differential – 50
representation 248–249
repression 98–100, 104
retarded children 44
reversal shift 78

Sex
– identity 28–42
– role 28
social
– activity 22
– gerontological theory 22
– integration of the old 17
– involvement 20
– role 2
socialization practices 100
sociological theories of aging 17–27
society
– industrial – 19
structure
– of knowing 257
– operative – 247
structural
– analysis 269–279
– changes 273
superego 92

Time
– historical – 275
– of measurement 261
– perspective 11
thinking
– capacity 254
– and language 251–254
– operative 252
– preoperational – 253
training 213–240
– studies 223–229
transfer 213–240

University of Michigan 269–279

Verbal development 170
visual
– choice 168
– search 166
– selection 149
